MANCHESTER AIRPORT (EGCC) - MAJOR CONSTRUCTION WORKS 2023 - 2025

1 Introduction

- 1.1 Major work will take place between **Spring 2023 and Summer 2025** to construct a second pier serving Terminal Two with associated aprons and taxilanes. The entire area will be fenced to create a landside enclave on the airfield. The work will involve stand and taxiway closures, stand down grades and a taxiway realignment.

2 Operational Implications

- 2.1 Upon completion of the site boundary fence erected at the northwest end of Taxilane November-Charlie:
- Taxilane November-Charlie will become a cul-de-sac;
 - Stands 84, 239, 241 & 243 will be permanently withdrawn from use;
 - Non-standard pushbacks will be required from Stand 237;
 - Stands 70 and 71 will be downgraded to ICAO Code C aircraft to allow for the realignment of Taxiway Echo centreline to facilitate the building of the southernmost node on Pier Two.
